SAFETY DATA SHEET

R413A

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name

R413A

Unique formula identifier (UFI)

7R95-H02G-QP32-3JWS

1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses of the substance or mixture

Refrigerant
Restricted to professional users.

Uses advised against

Consumer uses: Private households (= general public = consumers)

1.3. Details of the supplier of the safety data sheet

Company and address

Darment Oy
Ruosilantie 18
00390 Helsinki
Finland
+358 20 558 8250
www.darment.eu

E-mail

info@darment.fi

Revision

03/06/2025

SDS Version

1.0

1.4. Emergency telephone number

HUS Poison Information Center, 24h 0800 147 111
Poison Information Center / HUS, Tukholmankatu 17, 00029 HUS (Helsinki)
See first aid measures section 4.

SECTION 2: Hazards identification

Classified according to Regulation (EC) No. 1272/2008 (CLP).

2.1. Classification of the substance or mixture

Flam. Gas 1B; H221, Flammable gas
Press. Gas (Liq.) ; H280, Contains gas under pressure; may explode if heated.

2.2. Label elements

Hazard pictogram(s)

Signal word

Danger

Hazard statement(s)

Flammable gas (H221)
Contains gas under pressure; may explode if heated. (H280)

Precautionary statement(s)

General

-

Prevention

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. (P210)

Response

Leaking gas fire: Do not extinguish, unless leak can be stopped safely. (P377)
In case of leakage, eliminate all ignition sources. (P381)

Storage

Store in a well-ventilated place. (P403)

Disposal

-

Hazardous substances

1,1,1,2-Tetrafluoroethane
Octafluoropropane
isobutane

Additional labelling

Contains fluorinated greenhouse gases.

2.3. Other hazards

Additional warnings

In the event of leaks, high concentrations of gases can quickly form. They can be toxic, asphyxiating, or explosive. This mixture/product does not contain any substances known to fulfil the criteria for PBT and vPvB classification. This product does not contain any substances considered to be endocrine disruptors in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2023/707.

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable. This product is a mixture.

3.2. Mixtures

Product/substance	Identifiers	% w/w	Classification	Note
1,1,1,2-Tetrafluoroethane	CAS No.: 811-97-2 EC No.: 212-377-0 REACH: 01-2119459374-33-XXXX Index No.:	86-90%	Press. Gas (Liq.) , H280	
Octafluoropropane	CAS No.: 76-19-7 EC No.: 200-941-9 REACH: 01-2119948589-16-XXXX Index No.:	8-10%	Press. Gas (Liq.) , H280	
isobutane	CAS No.: 75-28-5 EC No.: 200-857-2 REACH: 01-2119485395-27-XXXX Index No.: 601-004-01-8	2-3%	Flam. Gas 1A, H220 Press. Gas (Liq.) , H280	

See full text of H-phrases in section 16. Occupational exposure limits are listed in section 8, if these are available.

Other information

-

SECTION 4: First aid measures

4.1. Description of first aid measures

General information

In the case of accident: Contact a doctor or casualty department – take the label or this safety data sheet. Contact a doctor if in doubt about the injured person's condition or if the symptoms persist. Never give an unconscious person water or other drink.

Inhalation

Upon breathing difficulties or irritation of the respiratory tract: Bring the person into fresh air and stay with him/her.

Skin contact

Thaw frosted parts with lukewarm water. Do not rub affected area. Get immediate medical advice/attention.

Eye contact
If in eyes: Flush eyes with water or saline water (20-30 °C) for at least 5 minutes. Remove contact lenses. Seek medical assistance and continue flushing during transport.

Ingestion
Exposure is not likely due to the physical state of the product (gas).

Burns
Rinse with water until pain stops then continue to rinse for 30 minutes.

4.2. Most important symptoms and effects, both acute and delayed
None known.

4.3. Indication of any immediate medical attention and special treatment needed
Treat symptomatically.

Information to medics
Bring this safety data sheet or the label from this product.

SECTION 5: Firefighting measures

5.1. Extinguishing media
Suitable extinguishing media: Alcohol-resistant foam, carbon dioxide, powder, water mist.
Unsuitable extinguishing media: Waterjets should not be used, since they can spread the fire.

5.2. Special hazards arising from the substance or mixture
Contains gas under pressure; may explode if heated.
Given that it does not present a risk gas supplies shall be disrupted immediately. Removal of pressurized containers or attempting to cool with water shall be entrusted the fire brigade.
If the product is exposed to high temperatures, e.g. in the event of fire, dangerous decomposition compounds are produced. These are:
Halogenated compounds
Carbon oxides (CO / CO2)

5.3. Advice for firefighters
Wear self-contained breathing apparatus and protective clothing to prevent contact. Upon direct exposure contact the Poison Information Center on: 09-471977, in order to obtain further advice.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
Accidental releases always pose a serious risk of fire or explosion.
Storages not yet ignited must be cooled by water mist. Remove flammable materials if conditions allow it. Ensure sufficient ventilation.
Disconnect the gas supply provided it does not present a risk. Avoid breathing fumes. Make sure to have a self-contained breathing apparatus available and ready-to-use in the event of an emergency.
Ensure adequate ventilation, especially in confined areas.

6.2. Environmental precautions
In the event of leakage to the surroundings, contact local environmental authorities.

6.3. Methods and material for containment and cleaning up
Disconnect the gas supply. Allow liquefied gas to evaporate and dilute into safe concentration levels in the surrounding atmosphere. If necessary control the dilution of the gas with a mist of water. Ventilate rooms in order to remove the gas.

6.4. Reference to other sections
See section 13 “Disposal considerations” on handling of waste.
See section 8 "Exposure controls/personal protection" for protective measures.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Smoking, drinking and consumption of food is not allowed in the work area.
See section 8 "Exposure controls/personal protection" for information on personal protection.

7.2. Conditions for safe storage, including any incompatibilities
Vapours may propagate along the floor. Prevent the forming of flammable or explosive vapour concentrations by applying sufficient ventilation. Do not use this product in close proximity to sources of ignition.
Protect electrical equipment in accordance with current standards. To divert static electricity during transmission, containers must be grounded and connected by wire with the receiving containers. Do not use spark-forming tools.
Must be stored in a cool and well-ventilated area, away from possible sources of ignition.

Pressurized gas packs (spray cans, aerosol cans) must be stored behind a wire mesh, which allows gases to escape and holds back packs flying around.

Recommended storage material

Keep only in original packaging.

Storage conditions

< 50°C
Dry, cool and well ventilated
Protect from sunlight.

Incompatible materials

Strong acids, strong bases, strong oxidizing agents, and strong reducing agents.

7.3. Specific end use(s)

This product should only be used for applications quoted in section 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

isobutane
Long term exposure limit (8 hours) (ppm): 800
Long term exposure limit (8 hours) (mg/m^3): 1900
Short term exposure limit (15 minutes) (ppm): 1000
Short term exposure limit (15 minutes) (mg/m^3): 2400
Annotations:
Bilaga 4 = Oxygen displacing suppressing gases. Causes suffocation by displacing the oxygen in air.

Regulation of the Ministry of Social Affairs and Health on concentrations of chemical substances found to be harmful (55/2025).

DNEL

1,1,1,2-Tetrafluoroethane

Duration:	Route of exposure:	DNEL:
Long term – Systemic effects - General population	Inhalation	2476 mg/m^3
Long term – Systemic effects - Workers	Inhalation	13936 mg/m^3

PNEC

1,1,1,2-Tetrafluoroethane

Route of exposure:	Duration of Exposure:	PNEC:
Freshwater		100 µg/L
Freshwater sediment		750 µg/kg
Intermittent release (freshwater)		1 mg/L
Marine water		10 µg/L
Sewage treatment plant		73 mg/L

8.2. Exposure controls

Compliance with the given occupational exposure limits values should be controlled on a regular basis.

General recommendations

Observe general occupational hygiene standards.

Exposure scenarios

There are no exposure scenarios implemented for this product.

Exposure limits

Professional users are subjected to the legally set maximum concentrations for occupational exposure. See occupational hygiene limit values above.

Appropriate technical measures

Adequate ventilation must be ensured for all gases. Where natural ventilation is not possible (cellar rooms), artificial ventilation must be installed. It is advantageous to store it in a lattice shed outdoors, as ventilation is no longer necessary in this case.

Hygiene measures

In between use of the product and at the end of the working day all exposed areas of the body must be washed thoroughly. Pay special attention to hands, forearms and face.

Measures to avoid environmental exposure

No special when used as intended.

Individual protection measures, such as personal protective equipment

Generally

Use only CE marked protective equipment.

Respiratory Equipment

Type	Class	Colour	Standards
Respiratory protection is not needed in the event of adequate ventilation.			

Skin protection

Recommended	Type/Category	Standards	
Safety shoes	II	EN ISO 20345 / EN ISO 20347	

Hand protection

Material	Glove thickness (mm)	Breakthrough time (min.)	Standards	
Gloves	-	> 240	EN374, EN388	

Eye protection

Type	Standards	
Face shield alternatively safety glasses with side shields.	EN166	

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state

Gas

Colour

Colourless

Odour / Odour threshold

ether-like, Faint

pH

Does not apply to gases.

Density (g/cm^3)

4.42

Relative density

Does not apply to gases.

Kinematic viscosity

Does not apply to gases.

Particle characteristics

Does not apply to gases.

Phase changes

Melting point/Freezing point (°C)

Does not apply to gases.

Softening point/range (°C)

Does not apply to gases.

Boiling point (°C)

-33.4

Vapour pressure

7.82 bar (25 °C)

Relative vapour density

3,82

Decomposition temperature (°C)
No data available.

Data on fire and explosion hazards

Flash point (°C)
Does not apply to gases.

Flammability (°C)
The material is ignitable.

Auto-ignition temperature (°C)
No data available.

Lower and upper explosion limit (% v/v)
No data available.

Solubility

Solubility in water
No data available.

n-octanol/water coefficient (LogKow)
No data available.

Solubility in fat (g/L)
No data available.

9.2. Other information

Pseudo-critical temperature (gas mixture) (°C)
95,3

Other physical and chemical parameters
No data available.

Molecular Weight (g/mol)
104,0

Oxidizing properties
No data available.

SECTION 10: Stability and reactivity

10.1. Reactivity
No data available.

10.2. Chemical stability
The product is stable under the conditions, noted in section 7 “Handling and storage”.

10.3. Possibility of hazardous reactions
None known.

10.4. Conditions to avoid
Avoid static electricity.

10.5. Incompatible materials
Strong acids, strong bases, strong oxidizing agents, and strong reducing agents.

10.6. Hazardous decomposition products
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity

Product/substance	Octafluoropropane
Species:	Rat, male/female
Route of exposure:	Inhalation
Test:	LC50
Result:	> 8 647 ppm

Product/substance	Octafluoropropane
Species:	Rat, Sprague-Dawley, male/female
Route of exposure:	Dermal
Test:	LD50
Result:	> 2 000 mg/kg

Product/substance	isobutane
Species:	Mouse

Route of exposure:	Inhalation
Test:	LC50 (2 hours)
Result:	1237 mg/L

Product/substance	isobutane
Species:	Mouse
Route of exposure:	Inhalation
Test:	LC50 (2 hours)
Result:	520400 - 539600 ppm

Product/substance	isobutane
Species:	Rat
Route of exposure:	Inhalation
Test:	NOAEC
Result:	7,214-21,394 mg/L

Product/substance	isobutane
Species:	Rat
Route of exposure:	Inhalation
Test:	NOAEC
Result:	4000-16000 ppm

Product/substance	isobutane
Species:	Rat
Route of exposure:	Inhalation
Test:	LOAEC
Result:	21,641 mg/L

Product/substance	isobutane
Species:	Rat
Route of exposure:	Inhalation
Test:	LOAEC
Result:	12000 ppm

Based on available data, the classification criteria are not met.

Skin corrosion/irritation

Product/substance	Octafluoropropane
Species:	Human
Result:	No adverse effect observed (Not irritating)

Based on available data, the classification criteria are not met.

Serious eye damage/irritation

Based on available data, the classification criteria are not met.

Respiratory sensitisation

Based on available data, the classification criteria are not met.

Skin sensitisation

Product/substance	Octafluoropropane
Test method:	OECD 406
Species:	Guinea pig, Dunkin-Hartley, female
Result:	No adverse effect observed (not sensitising)

Based on available data, the classification criteria are not met.

Germ cell mutagenicity

Based on available data, the classification criteria are not met.

Carcinogenicity

Based on available data, the classification criteria are not met.

Reproductive toxicity

Based on available data, the classification criteria are not met.

STOT-single exposure

Based on available data, the classification criteria are not met.

STOT-repeated exposure

Based on available data, the classification criteria are not met.

Aspiration hazard

Based on available data, the classification criteria are not met.

11.2. Information on other hazards

Long term effects

None known.

Endocrine disrupting properties

This mixture/product does not contain any substances known to have hormone-disrupting properties in relation to health.

Other information

None known.

SECTION 12: Ecological information

12.1. Toxicity

Product/substance	isobutane
Species:	Fish
Compartment:	Freshwater
Duration:	4 hours
Test:	LC50
Result:	24,11-147,54 mg/L

Product/substance	isobutane
Species:	Crustacean
Duration:	48 hours
Test:	LC50
Result:	14,22-69,43 mg/L

Based on available data, the classification criteria are not met.

12.2. Persistence and degradability

Product/substance	isobutane
Conclusion:	Readily biodegradable

12.3. Bioaccumulative potential

Based on available data, the classification criteria are not met.

12.4. Mobility in soil

No data available.

12.5. Results of PBT and vPvB assessment

This mixture/product does not contain any substances known to fulfil the criteria for PBT and vPvB classification.

12.6. Endocrine disrupting properties

This mixture/product does not contain any substances considered to have endocrine-disrupting properties in relation to the environment.

12.7. Other adverse effects

-

Global warming potential (GWP)

2054

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Product is covered by the regulations on hazardous waste. (*)
HP 3 - Flammable
Commission Regulation (EU) No 1357/2014 of 18 December 2014 on waste.

** Environmental hazards

Additional information

This product is within scope of the regulations of transport of dangerous goods.
ADR / See Table A, section 3.2.1 for any information on special provisions, requirements, or warnings in connection with transport. See section 5.4.3, for instructions in writing regarding mitigation of damages in relation to incidents or accidents during transport.
IMDG / See section 3.2.1, for any information on special provisions, requirements, or warnings in connection with transport.
IATA / See Table 4.2 for any information on special provisions, requirements, or warnings in connection with transport.

14.6. Special precautions for user

Not applicable.

14.7. Maritime transport in bulk according to IMO instruments

No data available.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Restrictions for application

Restricted to professional users.
People under the age of 18 shall not be exposed to this product.

Demands for specific education

No specific requirements.

SEVESO - Categories / dangerous substances

Liquefied flammable gases - Qualifying quantity (lower-tier): 50 tonnes / (upper-tier): 200 tonnes

REACH, Annex XVII

isobutane is subject to REACH restrictions (entry 40).

Additional information

Not applicable.
